

# SERVICES

CLARIAH-DE offers humanities as well as cultural and social sciences researchers a wide range of technical infrastructures, repositories and digital tools.

## SERVICES AND TOOLS

- Search and Find
- Annotate and Edit
- Analyze and Visualize
- Publish and Archive

## COMMUNITY AND PROMOTION OF JUNIOR RESEARCHERS

- Workshops
- Courses
- Summer Schools
- Scholarships

## ACCOUNT AND HELPDESK

All CLARIAH-DE services can be used via home institution login details and with a CLARIN ERIC or DARIAH account.

**clarin-d.net**

**de.dariah.eu**

For questions and problems concerning CLARIAH-DE, the helpdesk is available:

**support@clariah.de**

# ABOUT CLARIAH-DE

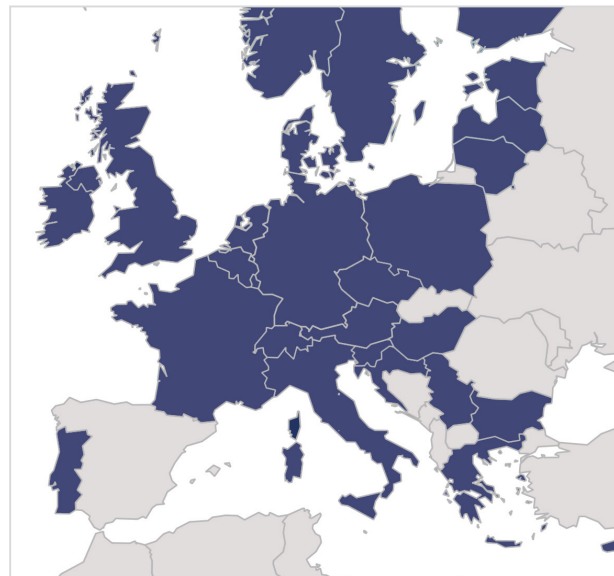

**CLARIAH-DE is the merger of the two German research infrastructure networks CLARIN-D and DARIAH-DE. In this joint project, the established research infrastructures will be merged over the course of two years (2019-2021).**

This is an important milestone on the way to a shared space for cooperative, digitally supported research in the humanities, the cultural and social sciences in Germany and Europe.

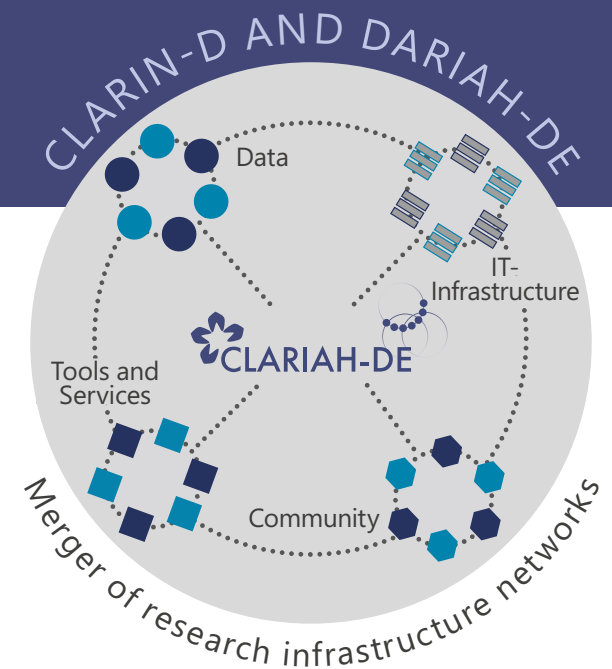

Thus, academic endeavours of researchers who work with complex digital tools and special data repositories shall be substantially facilitated.

The project is sponsored by the Federal Ministry for Education and Research (Bundesministerium für Bildung und Forschung, BMBF) and aims to contribute to the further development of the national research infrastructures.

## THE NETWORK IN EUROPE

The CLARIN, DARIAH and CLARIAH research infrastructures are active on a national and the European level. CLARIN and DARIAH both have the status of a European Research Infrastructure Consortium (ERIC).

The content-related and technological foundations created by CLARIN-D and DARIAH-DE will be aligned, integrated, further developed and jointly maintained in CLARIAH-DE.

### DATA

Research data, standards and procedures

### TOOLS AND SERVICES

Tools and virtual research environments

### COMMUNITY

Skills training and promotion of junior researchers  
Community engagement: Outreach/dissemination and liaison

### IT-INFRASTRUCTURE

Integration and coordination of technical developments
